

I am writing to explain how K-LOVE radio station is an incredible service to the Denver metro community. The music and encouragement that it provides is critical to my raising kids and staying positive in a day of negativity and war. I believe that K-LOVE provides programing for a multitude of people of differing ages and backgrounds. K-LOVE is a unifying tool in our community. We would be greatly effected if it were displaced by an LPFM broadcaster. Please do not give LPFM stations priority over this existing FM translator station.

Sincerely,

KIM JONES
